

Pitching the perfect game

You could say we pitched the perfect game in 2014. Our team posted a perfect safety record with zero recordable accidents and earned several awards, including the Associated General Contractors of St. Louis Safety Award. We're proud not only to provide quality ground improvement, but also to ensure every member of our team gets home safe from the job site. [Learn more about our safety program here.](#)

Ground improvement techniques that save time and money

Aggregate pier ground improvement is one of the most economical methods available today to create a strong foundation. Vibrated aggregate piers are even more efficient and eliminate spoils to save time and money. [Learn more about these innovative ground](#)

improvement techniques.

We've been busy

As one of the largest and most trusted ground improvement contractors in the U.S., we're currently constructing aggregate piers for a number of projects, including:

- Reliant Health Hospital — Norwood, Ohio
- Advanced Autoparts — Mattoon, Illinois and Lansing, Michigan
- Center for Family Medicine — Carlinville, Illinois
- University Apartments — Champaign, Illinois
- Loretta Hall Townhomes — St. Louis, Missouri
- Grain Silos — East Fairview, North Dakota
