## Taking the right approach with your ground improvement project

Getting results means taking the best approach. When it comes to setting your project on a firm foundation, that means selecting the optimal ground improvement technique for success. We've published an informative article that gives you a cost-conscious look at ground improvement techniques. And in it, we show you when it's feasible to use a cutting-edge, innovative approach that saves money. [Read the article here.](#)

## Filling in a couple new states

Through more than 100 years serving the construction industry, we've provided ground improvement and deep foundations in more than 30 states. This year, we've added Alabama and Washington state to our growing list.

And we're delivering major projects nationwide, including:

- Ella Grant Elementary Multi-Purpose Building – Mobile, Alabama
- Residence Inn – Wauwatosa, Wisconsin
- Advanced Auto Parts – Lansing, Michigan
- O'Reilly Auto Parts – Plymouth, New Hampshire
- Family Dollar – Sandgap, Kentucky
- CVS Pharmacy – Springfield, Missouri
- Grain handling facility – Clarkston, Washington

---

**Kurt Amidon joins the Subsurface team**

At Subsurface Constructors, we believe firm foundations start with a strong team. That's why we're proud to announce the addition of Kurt Amidon, a veteran of the geotechnical profession. With more than 18 years of experience as a geotechnical consultant, Kurt has held leadership roles in some of New England's most successful geotechnical firms. He is now our Business Development Manager for the Northeast Region, allowing us to provide an increased level of personal service to our clients in the Northeast.
