Retail and Commercial Structures

Vibro Stone Columns Used to Stabilize High Profile Sites Underlain by Soft Soils

The high profile sites most desired by commercial developers are often available because the soil is marginal at the site. For even lightly loaded structures, vibro stone columns provide a cost effective means to support these structures. Subsurface has provided the design and installation for such owners as CVS, Wal-Mart, Hardees, Dollar General, Dick's Sporting Goods and Holiday Inn.

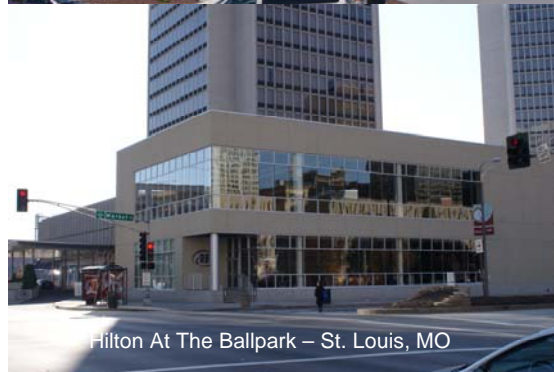

Vibro stone columns/aggregate piers are often a much faster, more economical solution to over-excavation, even on small sites.

A Few Projects...

- Dick's Sporting Goods – Columbia, MO
- CVS Pharmacies – Greensboro, NC; Atchison, KS
- The Capital Grille – King of Prussia, PA
- Wal-Mart Supercenter Expansion – Chesterfield, MO
- Holiday Inn Express – Pauls Valley, OK
- Dollar General Stores – Athens, IL; Arnold, MO
- Hilton At The Ballpark – St. Louis, MO
- Jim Lynch Toyota – Hazelwood, MO
- Zona Rosa Retail Shops/Garage – Kansas City, MO
- Safety National Insurance – St. Louis, MO
- Holiday Station Store – Minneapolis, MN
- Bank of Washington – Washington, MO
- Villa Lighting – St. Louis, MO
- Restaurant Depot – St. Louis, MO

Dick's Sporting Goods & Stadium Shoppes – Columbia, MO

Hilton At The Ballpark – St. Louis, MO

Safety National Insurance – St. Louis, MO

Villa Lighting – St. Louis, MO
